## Preparation Checklist

Please provide at least 20 Feet by 20 Feet of space for each ball with at least 18-foot-high clearance from tree branches and other obstructions for the bounce house. Please ask about space requirements for other types of units.

Make sure there are no underground irrigation pipes and/or buried telephone cables or electric lines close to the perimeter of the bounce site. We will use metal stakes 24" – 40" to secure the unit. Bump and Roll LLC. is not responsible for any damage when stakes are used.

Clear the site of all sharp sticks, animal waste, large rocks and other large debris. If animal waste must be removed, please cover the spot to protect our equipment from any residue. On hard surfaces like driveways or parking lots, please sweep the area clean.

The bounce site should be relatively level. No more than a 6inch slope per 10 feet.

A standard 110V outlet within 50 feet of where the unit will be located is required for operation. This must be a dedicated circuit not be shared with any other equipment.

Please be present at the time of delivery and pick up.

A clear path of at least 3 feet wide is necessary for delivery of inflatables.

I Have Read & Understand The Waiver/Rules.
